EXPERIENCE

BRAIN NTNU — *Head of Tech*

January 2022 - PRESENT

Responsible for maintaining the tech within BRAIN, a student organization that brings students, the research community and the private sector together by hosting events about AI.

NTNUI TENNIS — *Board Member*

January 2022 - PRESENT

Responsible for maintaining the website and doing tasks that a board member does such as coaching, organizing, and promoting.

EDUCATION

NTNU, Trondheim — *Datateknologi*

2019 - 2024

PROJECTS

SURE — *Insurance on Solana (Crypto)*

Insurance protocol on the Solana blockchain tackling the ever-increasing occurrences of hacks in the DeFi ecosystem.

MINTA — *IOS Application*

Mobile application that makes it possible to create/mint NFTs through your phone instantly, cheaply, and with ease.

BIOMARKERS — *Data Analyst*

During the summer of 2022 I worked for two weeks with my father at the Department of Cancer Immunology, Oslo, and University Hospital, where I learned problem-solving approaches in the development of biomarkers for cancer patients.
